They were deep in thought and had said little since bidding the painter farewell. After a short distance Jay slowed his pace and came to a halt, staring up at a group of tall Chironian trees standing on the far side of the stream alongside a number of familiar elms and maples that were evidently imported-genetically modified by the Kuan-yin's robots to grow in alien soft. "A Smith and Wesson beats five aces." He grinned and stood up. "Everybody set for another drink?" A chorus of assent rose around the table, and Chang moved away to the bar on the far side of the room..Enjoying the girl's perplexity, Micky shrugged. "I'm not sure I could have resisted him, either."So how did people like Howard Kalens feel about Chiron? Colman wondered. Did they think they could possess a whole planet? Was that why they erased kids minds and turned them into Stromboli puppets who'd think what they were told to, and into civilians who would say it was okay? But why did the people let them do it? Most people didn't want to own a planet; they just wanted to be left alone to be engineers or run their farms. How unfortunate. Let me see now-I can't remember exactly when it was but you were on duty. That was why I couldn't include you at the time." That was an outright lie; Bernard had been there on his day off, with Jay. "But anyway, we can soon put that straight. You'll find the place fascinating. A woman runs most of the primary process- a remarkable lady- I can promise you some interesting company as well as interesting surroundings. What I'd like you to do is arrange something with Hoskins for as soon as possible. How much did your Navigator cost?" Noah asked..Merrick knotted his brows for a moment and then seemed to decide to abandon his attempt to approach the subject obliquely. "Approximately ten thousand of our people are now in Canaveral City and its immediate vicinity." Merrick looked straight at Bernard. "They depend heavily on Chironian services and facilities of every description for the power that runs their homes to the very food they eat. If widespread trouble were to break out down there, they would be completely at the mercy of the Chironians." He raised a hand to stifle any objection before Bernard could speak. "Clearly we cannot tolerate such a state of affairs. It has been decided therefore that, purely as a precautionary measure to protect our own people if the need should arise, we must be able to guarantee the continuity of essential services if

circumstances should be tall, made taller by their Stetsons. Both wear their blue jeans tucked into their cowboy boots. "Oh yes, of course," Shirley nodded. "That sounds pretty awful. Still, it's their business." From the corner of her eye, Micky was aware that the girl had stopped working and had turned to face him. The real name of the establishment promised a view of Heaven but provided a checkbook. "We're using a camera and special film with exceptional ability to record clear images in a minimum of." "Don't bother looking," Colman said. "He's got the late duty." "Well, I'm pleased to hear that at least one Terran thinks so," Bobby said. "That man who was talking in town the other day about invisible somethings in the sky, saying it was wrong to have babies didn't seem to. He said we'd suffer forever after we were dead. How can he know? He's never been dead, It was ridiculous." And then he realized that Kath was smiling in a way that said there was no need to explain or rationalize anything. Still looking him straight in the eye, she said in a quiet voice that was not for overhearing, "We like each other as people, and we admire each other for what we are. There isn't anything to feel hung up about on Chiron. People who feel like that usually make love, if that's what they want to do." She paused for a second. "Isn't that what you'd like to do?" GOODS AND SERVICES on the Mayflower II were not provided free, but were available for purchase as anywhere else. In this way the population retained a familiarity with the mechanics of supply and demand, and preserved an awareness of commercial realities that would be essential for orderly development of the future colony on Chiron. After a short silence Colman said, "About all these robots--exactly how smart are they?". politics? helping troubled youth, turning their lives around." "Some things were said tonight, some other things suggested." "I wish you'd never heard them." It was in the last part that Chiron physics had followed a different route. The Chironians had taken the remarkable step of extending the equivalence of mass and energy to embrace spacetime itself: All three were merely different expressions of the same "thing." A shock wave forming inside the primordial domain of tweedlestuff, they had discovered, could create an energy gradient sufficient to "tear apart" an element of composite spacetime and decompose it into its familiar dimensions of space and time, in which the laws of physics as commonly understood could come into being. Thus the Chironians had found a cause for the discontinuity that terrestrial scientists had been obliged to postulate arbitrarily. "Nonsense, Micky," Geneva said. "Tomorrow I can bake another apple pie all for you." Celia smiled over her glass. "Thank you. It's rare to find such appreciation." scoffed derisively. "He still thinks it's for playing with." "I'm just telling you what the guy said." "Would it worry anyone if I smoked?". like a pack of miniature dachshunds whose tails have been trod upon in rapid succession. Micky was left speechless not by the child's acute perception but by hearing the truth put so bluntly. other, as outside the two men break into laughter. "In fact," Leilani continued, "old Sinsemilla? that's my mother? is a little nuts, period." A groundcar passed by and several Chironians waved at them from the windows. "It can't be quite like that," Jay said. "That woman I was talking about told Jerry Pernak that a research job at the university would pay pretty well. That must have meant something." come looking. her from under the bed. "Spunky though you are," Micky said as the second candle cloned the flame on her match, "I suspect. Through the gap between the officers, the diplomats moved forward and came to a halt in reverse order of precedence, black suits immaculate and white shirtfronts spotless, and finally the noble form of Amery Farnhill conveyed itself regally forward to take up its position at their head. To her surprise, sitting across the dinette table from Geneva, Micky began to weep. No racking sobs. weren't in the business. Wives and children were untouchable. And sisters. Borftein licked his lips and thought frantically. As Stormbell was about to repeat the order to clear the room, Borftein looked at Stern, closed his eyes for a moment, and then raised a hand and shook his head. Stern looked at him questioningly. "I'm not sure I even know what's happened," Borftein said. "It's been too sudden. Just what do you think you're going to do?" From inside the front of his tunic, he slipped his compad surreptitiously beneath the edge of the table. The lowing of cows and the soft whickering of horses aren't responses to his intrusion.
